OUTLOOK AND STRATEGY

Market Review. The US continues to grapple with COVID-19 as daily cases reach the 81,000 mark in October. However, the market continues to show signs of recovery as 3Q GDP accelerated 33.1% as stronger consumer activity is seen in the US. Inflation rose to 1.4% in September from 1.3% in August, the highest since March. Unemployment rate has fallen further to 7.9% from 8.4% the previous month. Flash services PMI printed at 56 in October from 54.6 in September and the manufacturing PMI increased to 53.3 from 53.2. Retail sales rose 1.9% in September.

All eyes are on the US 2020 Elections with Democrat Joe Biden taking on incumbent Pres. Donald Trump. Polls point to a “Blue Wave” but whatever the result, the size of the next stimulus package out of the US depends on which party takes control of the senate with the Democrats offering a more substantial one. Rates in the US are expected to remain low with the Federal Reserve’s shift to average inflation targeting.

Fund Performance. The Fund returned 0.01% for the month, beating its benchmark by 2 basis points. Year-to-date, return amounted to -0.67%, underperforming its benchmark by 536 basis points.

Fund Strategy. The fund will maintain its current duration. Investors in the bond fund must be prepared to withstand short-term volatility as higher investment value is normally achieved over the medium- to long-term.
